Mission Statement

The mission of Chicago Charity Group is to do our part of selfless service as citizens of this beautiful city, to lend a helping hand, to make a difference, and to perpetuate positive and compassionate thinking. We hold charity events in order to raise money that will allow us to carry out our mission. No cause is too big or too small.

In addition, we are currently building a reserve fund to be used in emergencies such as natural disasters. This fund will allow us to be prepared and on site anywhere we may be needed and at a moment's notice.

History

The conception of Chicago Charity Group occurred during a typical dinner among five guys who have been close friends since High School. During this dinner we were discussing plans for a Christmas party, as the plans evolved, we found ourselves organizing a charity event where we would take donations to supply food to a local church and we would take toy donations for a children's hospital. The plans for the event fueled our sense of giving and thus we decided to form Chicago Charity Group, an organization that will allow us to make a difference, together. We have always given our time individually to various charitable causes. Now as part of one organization, we can pool our passion, our resources, and our friends to really touch the lives of others.
